EDUCATION

University of Central Florida

December, 2025

Data Science B.S.

Orlando, FL

- Acquired substantial knowledge in data science through a curriculum encompassing advanced statistical modeling, machine learning analysis, and data management strategies.
- Developed proficiency in coding and applying analytical principles, encompassing data exploration, predictive modeling, and data-driven decision-making strategies. Through hands-on experience in programming languages such as Python, R, and C, I acquired the skills to manipulate and analyze large datasets, implement machine learning algorithms, and extract meaningful insights.
- During university, I engaged in diverse club activities. In the Data Science Enthusiasts Club, I led discussions on data science advancements and organized workshops on analysis methods. As a member of the Data Analytics Association, I expanded my industry knowledge through event attendance.

WORK EXPERIENCE

Platinum Transaction

Feb. 2020 – Present

Technical Assistant

Orlando, FL

- Platinum Transaction is a Credit Card Merchant Services company based in Orlando FL.
- As a Technical Assistant, I collaborate with technical teams to address and analyze their needs, providing support and recommending solutions to enhance operational efficiency. My responsibilities encompass technical support, system troubleshooting, and participation in process improvement initiatives.

Seminole County Public Schools

Mar. 2024 – Present

Substitute Teacher

- Implement lesson plans and maintain classroom order, adapting to various grades and subjects as needed.
- Provide necessary accommodations for special needs students, ensuring their equal access to education and supporting their individualized learning needs.

DoorDash

Dec. 2020 – Present

Delivery Driver

Orlando, FL

- Handled and coordinated over 1,300 deliveries from merchant to customer, all while maintaining a 4.9 star rating, and delivering up to four orders at a time.
